

PIERCAN USA INC.

Your Glove Containment Expert

Announcement: New Standard Packaging

Superior product deserves superior packaging

We have raised the bar for our standard packaging. Gloves will be delivered in our new packaging beginning May 1st; there will be a short transition period where you may receive gloves in our old packaging as well as new. The new packaging includes pairs heat sealed in 0.3 mm vacum bags. No plastic inserts will be used with the new packaging. The pairs will be boxed in port specific, double wall corrugated containers. The containers are printed multi-language and on all sides for correct transportation and storage. The number of pairs packaged per box is:

Port Sizes	Pairs per box
9"-12"	15 pairs
6"-8"	10 pairs
Short Isolator Gloves	15 pairs

There will be additional fees released along with our new standard packaging. For all customers who require 1 or 2 pairs per box, there will be a charge of \$5.00 per singe box.
