Change Control Announcement # 017

Dear Customer,

Due to increasing demand, effective January 1, 2016 we will honor requests for 'One Lot Number' for all glove polymers manufactured at Piercan USA. The polymers manufactured at Piercan USA are: CSM, Polyurethane, Butyl, and Polyurethane/CSM. With this request we will guarantee all gloves release will have identical lot numbering. The primary benefit for receiving one lot number is limiting the gloves lost due to receiving integrity testing. You will find the costing listed on your Pricing and Ordering Policy, which was distributed along with your 2016 pricing sheet.

I remain at your disposal for any questions.

Sincerely,

Taylor Farias  
Sales Manager
